Profile Summary

Full Stack developer with experience in JavaScript, Next.js, React, Node.js, PostgreSQL, MongoDB, Tailwind, Redux, Express and API Rest. My professional career includes participation in group and individual practices and projects, which has allowed me to acquire deep knowledge of Full Stack development. Additionally, I hold a Bachelor's degree in Genetics and Biotechnology. I am committed to continuous learning and constantly improving my skills. I am comfortable working in agile environments using methodologies such as SCRUM, and I have experience using tools such as GIT for version control.

Work Experience

ESPAÑOL CON E

Full Stack Developer (internship)

Córdoba, ARG 05/2024 – 05/2024

- Modified, edited and updated the pages of the new B2 level Spanish classes using Next.js and MongoDB, improving usability and user experience.

Other experiences:

DOENK PER

Administrative Assistant

Chiclayo, PER 01/2023 - 11/2023

- Wrote and responded to emails to various clients.
- Coordinate meetings and calls with assigned sales representatives.
- Generated a 15% increase in new clients in 6 months by intensifying sales and making strategic visits to clients to close deals.

AHSECO PERU

Sales Executive

Lima, PER 05/2019 - 10/2022

- Developed sales processes based on lead generation, marketing strategies, client meetings, and sales closures.
- Exceeded the company's defined sales quota target for monthly sales revenue, achieving over 20% growth in the sales department in just 6 months.
